

### GLOBAL QA

Corpac's own skilled QA team inspects and oversees quality at every step. From mill through delivery, our skilled engineers, manufacturers and logistics experts work together to ensure integrity, compliance and timely delivery.

### TURNKEY SOLUTIONS

Our comprehensive inventory and global network of mills enable us to fulfill your requirements with immediate availability for a wide range of sizes and grades, as well as to provide global mill sourcing for specialized projects.

### SPECIAL SERVICES

We provide coatings, galvanizing, beveling, threading, slotting, cut-to-length, bends, quench and temper, fabrication, double-jointing and on-site assistance.

### CROSSOVER DISTRIBUTION MODEL

Corpac provides a range of services spanning the global supply chain by integrating the roles of manufacturers, trading companies, distributors and logistics providers.

### SUPPLY CONTRACTS JUST IN TIME PROGRAMS

We design these predetermined delivery schedules specifically for each customer, to meet product flow, while safeguarding on-site stock depletion and minimizing storage space and costs. Deliveries can be set to single, multiple or roving locations based on project needs.

As the industry pushes deeper and drills horizontally, tubular product suppliers must meet the demands for higher-grade tubular products, end finish requirements and overall quality. Corpac delivers, with a wide range of world-class OCTG products, services and solutions; decades of experience; and an unwavering commitment to quality. We combine global sourcing with an efficient distribution system to meet your immediate or long-term needs anywhere in the world.

Corpac provides high-quality tubing designed to withstand the rigors of transporting oil and gas from the production zone to the surface. Our world-class casing is manufactured to the highest industry specifications, to securely isolate the well bore from the formation while resisting external collapse pressure as well as pressure from within. Our OCTG products are currently in use as an integral part of well production in numerous locations worldwide.

## CASING

API 5CT  
H40 to Q125

OD Size Range	4.5" through 20"
Weight Range	9.5#/FT through 169#/FT
Lengths	Ranges 1, 2 or 3
Surface Finishes	Bare or regular mill coating
End Finishes	Plain end, 8rd, STC and LTC, buttress thread, premium connection
Additional Services	Vertical and horizontal slotting

## TUBING

API 5CT  
H40 to P110

OD Size Range	1.050" through 4.50"
Non-Upset T&C	1.14#/FT through 26.10#/FT
External Upset	1.20#/FT through 12.75#/FT
Lengths	Ranges 1 or 2
Surface Finish	Bare or regular mill coating
End Finishes	NU T&C, EU T&C, Buttress Thread, Premium
Additional Services	Internal Coating
